

# Additivo Antigraffiti

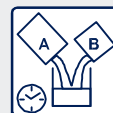

## Anti-graffiti Additive

### PRODUCT DESCRIPTION

Solution of well selected compounds in order to make 2K enamels and clearcoats resistant to graffiti.

### MIXING

Add the product in to 2K enamels and clearcoats instead of and with the same proportion of the specific thinner.  
Do not exceed the recommended quantities.

### APPLICATION

After mixing, catalyze the product as referred by technical data sheet.

### TECHNICAL DATA

Colour	Transparent
Density	0.860 Kg/l
Shelf life	2 years in original tightly closed containers away from direct sunlight and excessive heat. Min storage temperature: 18°C. Max storage temperature: 35°C.

### CLEAN UP

Clear the equipment carefully with Nitro thinner I 040.

### SAFETY PRECAUTIONS

#### FOR PROFESSIONAL USE ONLY

- Use only in well ventilated areas
- In case of insufficient ventilation, wear suitable respiratory equipment.
- Wear suitable gloves and wash hands immediately after work.
- Comply with the standards in force as to waste disposal.
- See special instructions or safety data sheets.
