

# Additivo Texturizzante

## Fine Texture (F240) – High Texture (F250)

### PRODUCT DESCRIPTION

Solution of well selected texturing compounds that makes 2K enamels and clearcoats opaque and rough, although keeping their chemical and physical characteristics unchanged.

### SUBSTRATES

Please refer to the technical data sheet of the product in use.

### MIXING

Add the additive in to the product with a proportion of about 50 – 70%.

### APPLICATION

Apply with a spray gun (nozzle 1.6 -1.8 mm).

Catalyze and dilute the product as referred by technical data sheet without considering the percentage of added additive.

For two-coat finishes add the additive either in to basecoat or in to clearcoat, not in to both. This additive cuts down the hiding power of the product and slightly changes the colour of it.

### DRYING

Please refer to the technical data sheet of the product in use.

### TECHNICAL DATA

Colour	Transparent
Density	0.940 Kg/l Fine Texture 0.939 Kg/l High Texture
Dry residue	30%
Shelf life	2 years in original tightly closed containers away from direct sunlight and excessive heat. Min storage temperature: 18°C. Max storage temperature: 35°C.
